

## **Statement from Bury FC Benefactor Limited (Nov 2024)**

*We have been sidelined from any active involvement or engagement with Bury FC over the past 12 months. We have kept our counsel and monitored as events unfold, some positive and some negative.*

*As a group, we felt that direct involvement on our part could have been misinterpreted and weaponised; consequently, we pursued a policy of interested non-participation.*

*As we look ahead to the FSSB elections, we hope that the new board members will actively promote unity and inclusivity. We will always remain keen to work with those willing to engage.*
